

# AWT OPERATOR WEBINAR SERIES

## WEBINAR SCHEDULE

**Ask an AWT Certified Operator**  
**November 17**  
11:00 a.m. to Noon

**Upcoming DPR Regulations and the Impact on Operations**  
**December 8**  
11:00 a.m. to Noon

**Advanced Water Treatment Technologies**  
**January 18**  
11:00 a.m. to Noon *(details to come)*

Register on the AWTO website  
[awtoperator.org](http://awtoperator.org)

*Contact Hours are not provided for informational webinars.*

California and Nevada face growing water shortages and the interest in advanced water treatment and reuse have never been higher. Join our series of webinars to learn about the Advanced Water Treatment Operator® (AWTO) certification program, upcoming water reuse regulations and more.

Water treatment, wastewater treatment and water reuse operators working at facilities using advanced treatment technologies and related processes may be interested in earning the new, voluntary AWTO® Certification.

AWTO certification was developed by a coalition of water and wastewater professionals using a nationally recognized process to define the roles and responsibilities for water treatment. Individuals who meet the eligibility requirements and pass the exam are granted use of the AWTO credential.

## WHO SHOULD ATTEND

- Water treatment operators
- Wastewater operators
- Utility managers/executives
- Project engineers
- Water reuse regulators
- Technology providers

## NEW AWT PHOTO CONTEST

If you hold an AWTO certification – **you're eligible to enter our photo contest.** Share your achievement of becoming AWTO certified. We'll choose one image for the top prize of a **\$100 Amazon gift card.** Enter online at [awtoperator.org](http://awtoperator.org)

*Entries due by 1/31/22. See complete criteria on the website.*

# AWT OPERATOR WEBINAR SERIES

**Dr. Erin Mackey**

**John Carroll, AWT5**

**Brian Bernados**

## ABOUT THE SPEAKERS

### Ask an AWT Certified Operator

**November 17**

**Dr. Erin Mackey** (moderator) is part of the AWTO Outreach work group and a Technology and Innovation Leader for Brown & Caldwell.

**John Carroll** is the Pure Water Treatment Superintendent for the City of San Diego and holds an AWTO Grade 5 certification. John also serves as chair of the AWTO Certification Committee.

**Tyler Lee** is a Water Reuse Recovery Facility Operator with the City of San Luis Obispo, who holds an AWTO Grade 3. Tyler has obtained an MBA and holds a Wastewater Treatment Grade 5, Wastewater Collection Grade 2, Water Treatment Grade 2, and Water Distribution Grade 2.

**David Bradley** is the Operations Supervisor at Monterey One Water and holds a Wastewater Treatment Grade 5 and AWTO Grade 5.

---

### Upcoming DPR Regulations and the Impact on Operations

**December 8**

**Brian Bernados, PE** is Senior Engineer and Technical Specialist, California State Water Resources Control Board, Division of Drinking Water. Brian has served on the California State Water Board Division of Drinking Water (DDW) for over 29 years. As a Technical Specialist, Brian has expertise in alternative technology, advanced technology, RO/AOP, UV disinfection (potable, recycled, and reuse), recycled water, groundwater recharge, surface water augmentation, direct reuse, seawater desalination, and water treatment additives/components.

**Andrew Salveson, PE** is a Vice President for Carollo Engineers. Andy has 28 years of environmental consulting experience serving public and private-sector clients in the research and design of water and wastewater treatment systems. He serves as Carollo's Chief Technologist for Water Reuse and is a nationally recognized expert in water reuse and disinfection.
