March 20th Dinner Meeting

What a Difference the IRA Made: Delta Diablo Cogeneration System Improvements Project

Thursday, March 20, 2025

DESCRIPTION:

Join us for an insightful discussion on the Delta Diablo Cogeneration System Improvements Project. Discover how our team collaborated to successfully meet the IRA Beginning of Construction requirements.

Learning Objectives:

- Participants will learn how Delta Diablo accomplished alternatives analysis, pre-design, design, bidding, and on-site construction before 2025.
- Participants will learn how design was streamlined when schedule could not be compromised.
- Participants will learn how the IRA created a common goal for a team to work together.

Schedule

- 6:00pm Social Gathering
- 6:30pm Dinner
- 7:00pm Presentation
- 8:00pm Door prizes

Zio Fraedo's

611 Gregory Lane
Pleasant Hill, CA 94523

Dinner will be served prior to presentation.

Costs*

- \$50 members
- \$70 non-members
- \$30 students

* Early registration discount of \$5.00 for registrations through March 17th

Dinner sponsored by

SPEAKERS

Murat Bozkurt is a licensed Professional Civil Engineer in the State of California with a strong background in government administration, specializing in program and project management, contract management, water and wastewater management, construction management, and civil/structural engineering. As Delta Diablo's Engineering Services Director/District Engineer, Mr. Bozkurt directs all activities within the Engineering Services Department, overseeing the planning, design, and construction of capital projects, including the District's Household Hazardous Waste Program. In addition, he manages key organizational functions to support the District's strategic goals.

Adam Ross As a mechanical and civil engineer, Adam's technical background is anaerobic digestion, biogas utilization, renewable energy, renewable fuels, and codigestion of organic waste. This work is strongly aligned with his passion for the environment and belief that we need to do everything possible to combat climate change. Adam is proud to have played a role in digestion and energy projects for the majority of Northern California's population. As a Strategy Leader for Climate Change and Resilience, Adam is focused on connecting Brown and Caldwell's unique talent and expertise to agencies seeking guidance and solutions for mitigating and adapting to climate change.
