

**CWEA Northern San Joaquin Section  
“Sanitary Sewer System WDR Workshop”**

**BY**

**SAM ROSE CONSULTING**

Achieving full compliance with all the extensive new Statewide Sanitary Sewer System WDR requirements can be challenging for both new and experienced professionals. This workshop will provide an overview of the new WDR sanitary sewer overflow response and reporting requirements, including strategies for estimating spill start time and methods to estimate spill volume. Tailored to field staff, this valuable training can not be missed.
