

CWEA

The Students & Young
Professionals Committee and the
Professional Development Committee are
pleased to present the

2024 Fall Leadership Book Club

For this book club, just like spring, we'd love for you to choose the book you'd like to read!

The sign-up link included below will ask you to vote on a book, a date, and a time.

We're aiming to meet up in November at a secret surprise location!

[Sign up here!](#)

The overall mission of the CWEA is “empowering, educating, and connecting water professionals to protect public health and the environment.” Accomplishing the mission requires leadership skills, hence, we are cultivating the habit of reading and reflecting best practices to be and become excellent leaders in our distinct domains. Doing this in community enhances our individual learning, inspiration, and joy in the process. We hope you will come and join us!
