Join the Students & Young Professionals Committee for the

# Silicon Valley Advanced Water Purification Center Treatment Plant Tour

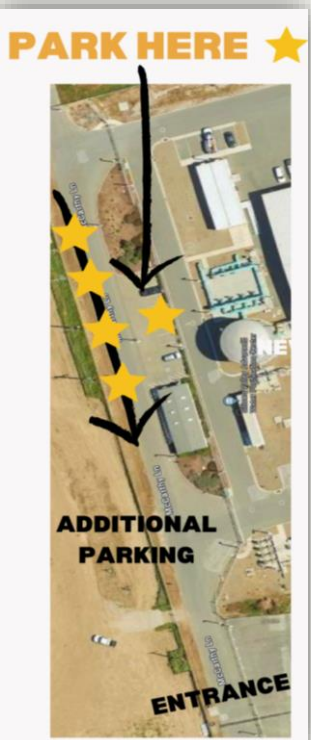

**CWEA**

This is a special event for Students and Young Professionals to get to tour the state-of-the-art Silicon Valley Advanced Water Purification Center

The Silicon Valley Advanced Water Purification Center (SVAWPC), the largest advanced water purification facility in Northern California, is producing a locally developed, new supply of water – advanced purified water. The purification center receives secondary-treated wastewater from the San Jose-Santa Clara Regional Wastewater Facility. The wastewater has undergone two treatment cycles that remove 99% of solid impurities in the water. At the purification center, the water undergoes three additional advanced treatment processes that purify the water to drinking water quality.

**SVAWPC Address: 4190 Zanker Rd, San Jose, CA 95134**

On-site parking in designated areas and along the exterior perimeter of the parking area.

Look for the tour sign. Go up to the classroom via the ramp.

## Event Details | Friday, April 26

- 9:15 am – Arrive for coffee/bagels/networking
- 9:45 am – Tour overview and introduction
- 10:15 am – Tour starts
- 11:00 am – Tour ends
