Learn from Water Industry Professionals

Join the San Francisco Bay Section and Sacramento Area Section Student & Young Professional Committees (SYPC) for a speaker panel ahead of the 2026 Career Fair. The event will be livestreamed on the OWEN platform along with an in-person event in Sacramento and in Walnut Creek.

Hear from water industry professionals as they share their career journeys, discuss emerging trends, and offer practical advice on navigating the transition from student to professional. Attendees will gain valuable insights to help them make meaningful connections, stand out to employers, and get the most out of the career fair. A live Q&A session will follow the panel discussion. In-person attendance at one of the two locations is strongly recommended (social hour + light refreshments). Online only attendance is available at the link below.

Featured Topics

- Launching a Career in Water & Wastewater
- Making Meaningful Connections & Building Your Network
- Career Growth & Professional Development
- Emerging Challenges and Industry Trends
- Lessons Learned from Industry Leaders
- Ask the Panel: Q&A

Registration for the online OWEN session is coming soon
