Photos by CWEA & City of SLO

With California’s wild weather whiplash, collection system professionals and managers need to be ready for anything. Droughts, deluges, and more.

CWEA’s Collection System Committee is proud to present two days of training, a vendor expo in San Luis Obispo and the annual summer meeting so you can build your skills, network with fellow sewer pros, and prepare for whatever is coming down the pipeline.

Starting with CSM certification prep on Wednesday, attendees will receive training on the key KSAs needed when preparing for the Collections Grade 1-4 Exams. Thursday will feature a frontline focused track, a hands-on track and an expo showcasing the latest technological innovations to boost productivity. Our annual Collection Systems Committee summer meeting on Friday will cap off the week. **Join us for one day or all three days. The choice is yours.**

Shawn Spromberg, Cucamonga Valley Water District

Shawn Spromberg serves as the Wastewater Utility Supervisor at Cucamonga Valley Water District in Rancho Cucamonga California. Shawn has over 15 years of experience in the wastewater collections field. He is currently responsible for managing, directing and overseeing staff and programs in all functions of the maintenance, repair and inspection of over 420 miles of wastewater mainline and just under 300 miles of lateral pipes and connections as well as all reporting and documentation. Shawn currently holds a CWEA Collections System Maintenance Grade IV certification as well as CWEA Plant Maintenance Technologist Grade I and SWRCB Water Distribution Grade IV and Water Treatment Grade III. Shawn also completed the Mt San Antonio Water Technology program and received his certificate. Shawn is Currently and active member of CWEA, SCAP, and CWEA SARBS Collections Committee where he teaches certification training in Wastewater Collections System Maintenance Grades 1-4.
