p3s25.cwea.org

Join California's pretreatment inspectors and collection system professionals as we bring together a community focused on innovative solutions for FOG (Fats, Oils, and Grease) management and pollution prevention. This year's workshop dives into the latest trends, tools, and challenges in FOG control, with expert-led sessions that explore essential insights and advancements, from new technologies to best practices for enhancing FOG program efficiency.

With a robust lineup of nationally recognized FOG experts, this is a prime opportunity to connect with industry leaders and bring impactful strategies back to your organization. Don't miss your chance to stay at the forefront of pollution prevention—reserve your spot today!

FOG WORKSHOP SPONSOR
