

AC20 Virtual Conference & Expo

CO-DIGESTION

The Wednesday Oct. 21st session will present a summary of the draft regulations under SB 1383 as well as the estimated Co-Digestion Capacity across California POTWs, including food waste projections, capacity of existing systems to co-digest food waste, infrastructure/investments needed to maximize co-digestion, GHG reductions, regulatory/financial considerations, and lessons learned from case studies.

The Thursday, Oct. 22nd session is dedicated to operations and maintenance case studies. Join these sessions and expand your knowledge of the co-digestion potential across California.

TOPICS & SPEAKERS

Wednesday, Oct. 21 CO-DIGESTION

Overview of SB 1383 Regulations

Sarah A. Deslauriers, Carollo Engineers

Statewide POTW Co-Digestion Capacity

Elizabeth Charbonnet, Carollo Engineers

Food Waste Co-digestion Regulatory Challenges and Benefits at SVCW

Ganesh Rajagopalan, Kennedy Jenks Consultants and Arvind Akela, SVCW

Sarah A. Deslauriers

Ganesh Rajagopalan

Sponsored by:

Thursday, Oct. 22 CO-DIGESTION O&M

Assessing Impact of Food Waste Addition to Liquids Treatment

Zakir M. Hirani, Stantec

Evaluation of Feedstocks for Co-Digestion at POTWs

Colin Moy, East Bay Municipal Utility District

Lessons Learned: Pilot Food Waste Co-Digestion at Goleta SD

James Dunbar, Lystek International

Breaking Down the Co-digestion Question: Lessons Learned at Encina

Scott Goldman, Woodard & Curran and Octavio Navarrete, Encina Wastewater Authority

Panel Q&A

Sponsored by:

After the sessions join the speakers for small group roundtables in the **Meet the Presenters** video chat.
