Planning on taking the CWEA Electrical and Instrumentation exam? For those professionals interested in taking the grade 1 or 2 exams, study alongside peers with the guidance of an industry expert at this helpful workshop.

This workshop is intended to steer learners in the right direction for certification preparation. The information shared during the session does not guarantee success in the exam without practice.

## GET PREPARED FOR YOUR CWEA CERTIFICATION EXAM

- Familiarize yourself with the exam process and subject matters.
- Understand the basics of electrical and instrumentation used in water.
- Use the information provided wisely, to achieve success on the exams.

### Not ready to take the exams yet?

Feel free to join the workshop to learn more about electrical and instrumentation terms and knowledge domains. This will be a fast paced and informative sessions for anyone interested in maintaining digital systems.
