

 Safety
First

REMEMBER TO MASK UP

Let's work together to make this a fantastic, safe, and healthy event!

The health and safety of conference attendees, CWEA staff, and Hyatt team members are paramount.

We'll be following the health and safety guidelines set by the LA County Department of Health, Long Beach Health Department, CA Department of Public Health, and CDC.

We're actively monitoring local/national health alerts, policies are subject to change. Please check back often.

Here's what you can expect at P3S22:

- **Masks are required for all attendees**, at all times when inside the Hyatt Regency per CWEA policy and health department guidelines.
- Additional room will be available to allow attendees to socially distance.
- When eating or drinking you may remove your mask. Please put your mask back on when you're done and between bites and sips at social events.
- Food and beverage will be served to you in order to minimize the number of touch points or will be individually wrapped/boxed.
- Hand sanitizer will be available throughout the conference area.
- Event venue will be consistently cleaned/disinfected.
- Non-contact greetings are highly recommended to maintain social distancing. Examples include: foot shake, nod, elbow bump, or a wave.
