Step inside **South Coast Water District's** award-winning **Tunnel Stabilization & Sewer Pipeline Replacement Project** in Laguna Beach. This exclusive, behind-the-scenes tour reveals how the tunnel was rehabilitated, why it's essential for public health and environmental protection, and how our teams access and maintain it safely for decades to come.

## What You'll Learn (2 CEUs per session)

- How the tunnel's rehab protects beaches, businesses, and public health
- The O&M playbook that keeps the system safe and reliable
- Design moves that cut risk and extend asset life - by decades
- Field takeaways you can apply to your own system tomorrow

## Program

- Check-in, Meal, Safety Briefing, and Presentation
- Shuttle (~5 min) to portal location
- Underground walking tour
- Shuttle return to shaft site

## Who should attend

- Operators
- Engineers
- Utility leaders
- Students
- Anyone who loves infrastructure...

*Closed-toed shoes required; PPE will be provided.  
No refunds, attendee substitutions allowed.  
Registration Closes Friday October 24<sup>th</sup> at 5pm*
