

Plant Tour and Dinner Meeting

May 21st 2026

The Bay Area's Largest Wastewater Treatment Plant:
What goes on behind the scenes?

Join the Santa Clara Valley Section of CWEA for an engaging tour and dinner meeting highlighting the biosolids program at the San Jose/Santa Clara Regional Wastewater Facility (SJ/SC RWF).

Attendees will have the opportunity to tour key process improvements, including the new dewatering building and/or the thermophilic digesters, offering a firsthand look at modern biosolids handling operations.

The presentation will provide an overview of the program, covering historical practices, technological advancements, disposal drivers, and details of the current capital improvement project.

Additionally, Dave Parry from Jacobs will present on the Microbial Hydrolysis Process (MHP), an innovative treatment approach that enhances digestion performance.

Don't miss this opportunity to gain valuable technical insight while connecting with fellow water professionals.

Schedule:

3:30pm Plant Tour – please arrive a bit early to prep

(please bring your PPE, hard hat, Hi-Vis Vest, and closed-toed shoes)
